Self·light®

Disposable medical proctoscopes.

sapi med
DIAGNOSTIC LINE

CE

The **Self•Light®** disposable proctoscope utilises a convenient battery-operated pen light, enabling examinations and minor therapeutic procedures to be performed in a non-specialist out-patients' department, on the ward or at home. Self•Light® unique handle allows the usage with Sapi Med LED light sources or flash-light and also with the new eco-friendly pen-LEDs, guaranteeing optimal illumination and making Sapi Med instruments multi-light devices. Self•Light® proctoscopes are made of transparent plastic material and supplied in individually sealed bags. A free pen-light is included in each box of scopes. Compatible, through adapter, to Sapitech cameras or to systems of image aquisition **ALREADY AVAILABLE IN HOSPITALS** (for example operating theatres laparoscopic column).

Self·light®

W.000116GB REV 04 03 2021
